TOP STORY

Ramadan Kareem from ZF Holding

With the spirit of Ramadan upon us, we extend our warmest wishes to our partners, clients, and team members. May this holy month bring clarity in vision, strength in collaboration, and growth in every step forward.

ZF Business Spotlight

What makes ZFA weighing solutions a strategic partner, not just a supplier?

As a subsidiary of ZF Holding, ZFA combines precision weighing systems with smart management solutions to help businesses operate more efficiently and reduce errors.

Updates from Subsidiaries

SKETCHURE at Istanbul

SKETCHURE attended the International Istanbul Furniture Fair (IIFF) and B2B Buyer Delegation Program through an invitation from OMSIAD. The visit offered valuable exposure to global workplace design trends.

ZFA continuing a collaboration with Thames Side

ZF Holding hosted William Morse from Thames Side Sensors for a productive visit focused on renewing our long-standing partnership. The day included product and company updates, open discussions, and meaningful exchanges.

CAREER OPPORTUNITIES

Join Our Growing Team!

We're expanding and seeking passionate professionals to join us on this exciting journey.

Inside ZF

Mostafa Ehab

JR. Project Operation & Estimation Engineer

This month, we're spotlighting one of the key voices behind our Junior Project Operation & Estimation Engineer role, Mostafa Ehab, who brings fresh perspectives and a passion for driving projects forward.

Can you tell us about your role as a Junior Project Operation & Estimation Engineer at ZF Holding?

The role is challenging, but my mindset is stronger. I focus on growing my value, planning through both crises and stable phases, and staying involved across all project aspects. I continuously analyze gaps to optimize performance.

What's one lesson the field has taught you that no university course could?

Obsession beats talent. Natural skill fades without daily growth, consistency, discipline, and hunger are what truly win.

How do you usually spend your weekends?

Mornings are for family. Afternoons are for friends. The gym fits perfectly in between.

Is there a new hobby or skill you'd like to learn?

I'm working on sharpening my people skills. My role isn't just about managing tasks; it's about managing people, stakeholders, expectations, and pressure as effectively as situations.

What's one thing you wish you knew while you were still an undergraduate student?

Life isn't always fair, as The Rolling Stones said in You Can't Always Get What You Want. What matters most is resilience, consistency, and mindset.

Let's keep simplifying the future!
