TOP STORY

SKETCHURE Brings OW DropBuy to Life

This month, we spotlight **SKETCHURE's** work on Oriental Weavers' new DropBuy concept at City Centre Almaza, a compact retail experience designed to connect physical browsing with digital discovery.

Built around a 360° customer journey, the kiosk combines curated carpet samples with interactive screens, QR-enabled exploration, and AI-powered personalization through OW Studio. The result is a scalable retail concept that gives customers a new way to discover, customize, and buy carpets.

ZF Business Spotlight

Can WOODCHURE tailor woodwork to different project needs?

Absolutely. WOODCHURE delivers customized woodwork solutions tailored to each project's design vision, functional requirements, and specifications, ensuring every detail fits seamlessly into the space.

Updates from Subsidiaries

FITCHURE Begins Work on a Hyde Park Villa

FITCHURE is currently working on a new residential fit-out project in Hyde Park, bringing its execution expertise to another space where design intent, technical coordination, and finish quality need to come together on site. Stay tuned as the project takes shape.

SKETCHURE Explores Healthier Design at SCAS

The SKETCHURE team joined a Lunch & Learn at SCAS with Matt Morley, Managing Director of Biofilico, exploring healthy buildings, biophilic design, and more human-centered spaces. The visit also included a showroom tour and industry catch-up, offering fresh perspectives on materials, solutions, and the future of healthier design.

A Practical Guide to Choosing the Right Water Pump

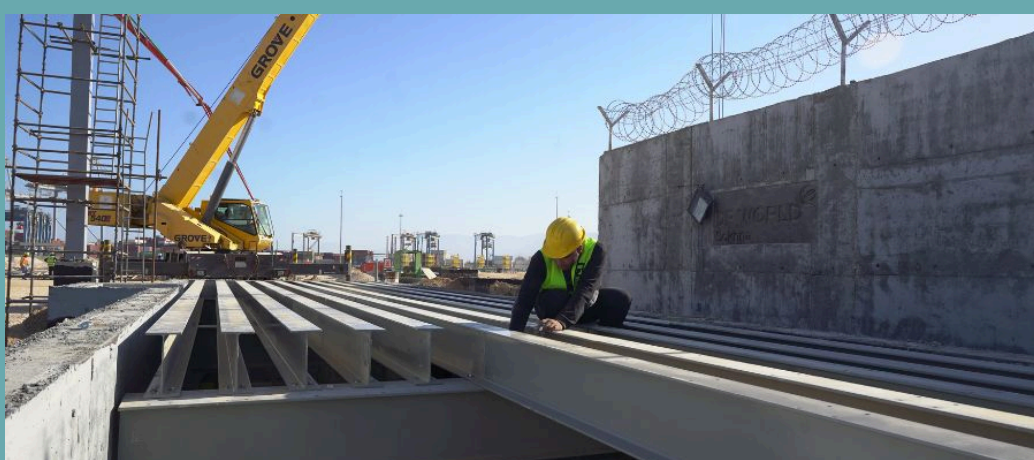

The wrong pump can mean wasted energy, higher maintenance costs, and avoidable downtime. Our latest guide breaks down 13 common pump types, from centrifugal and booster systems to high-pressure, submersible, and dosing pumps, and where each performs best.

It also looks at the factors that should drive selection, including flow rate, total dynamic head, fluid properties, and operating conditions, helping businesses match the equipment to the actual demands of the system.

Success Story By ZFA Weighing

DP World Sokhna: Eight Steel Weighbridges

THE NEED

DP World Sokhna required eight steel weighbridges to support reliable vehicle weighing within a fast-moving port environment.

ZFA'S CONTRIBUTION

ZFA delivered the weighbridge installation with precise execution and close site coordination, ensuring the work aligned smoothly with ongoing terminal operations.

THE RESULT

The project was delivered successfully, with ROWAD Modern Engineering praising ZFA's punctuality, competitive pricing, and ability to meet expectations.
